To whom it may concern,

Children's Wisconsin recently had the opportunity to interview trainees who have completed the Mediwork$ program, and we would like to share our feedback.

We appreciate the training provided through the Mediwork$ program. Including focus areas:

- Professionalism and workplace expectations
- Communication and customer service
- Attendance, punctuality, and accountability
- Teamwork and interpersonal skills
- Navigating healthcare environments and patient interactions

The preparation was evident during the interview process, as trainees presented themselves as well-prepared and professional.

We are currently considering several of the trainees for positions at Children's Wisconsin and are looking forward to continuing to partner with future cohorts. We look forward to ongoing opportunities to interview and potentially hire graduates of the program.

Please feel free to reach out if you have any questions or would like to discuss this feedback further.

Sincerely,

Julie Okoro
