Bachelor of Arts in Secondary Education -

Mathematics prepares you to teach in middle and high school. This fully online program offers licensure and non-licensure options and can be completed in three years. You study mathematics, instructional strategies, and technology while building skills in critical thinking, quantitative reasoning, and real-world application, with in a Christ-centered approach.

CAREER PATHWAYS

Graduates pursue roles as **middle and high school mathematics teachers**. The licensure pathway prepares students for Wisconsin certification in a high-demand field. The non-licensure option is also available.
